

TraffWeb

Interactive access to on-street parking places, restrictions and traffic orders over an intranet or the Internet for in house staff and/or public access.

For Consultation, Freedom of Information, and providing answers to queries relating to parking and orders.

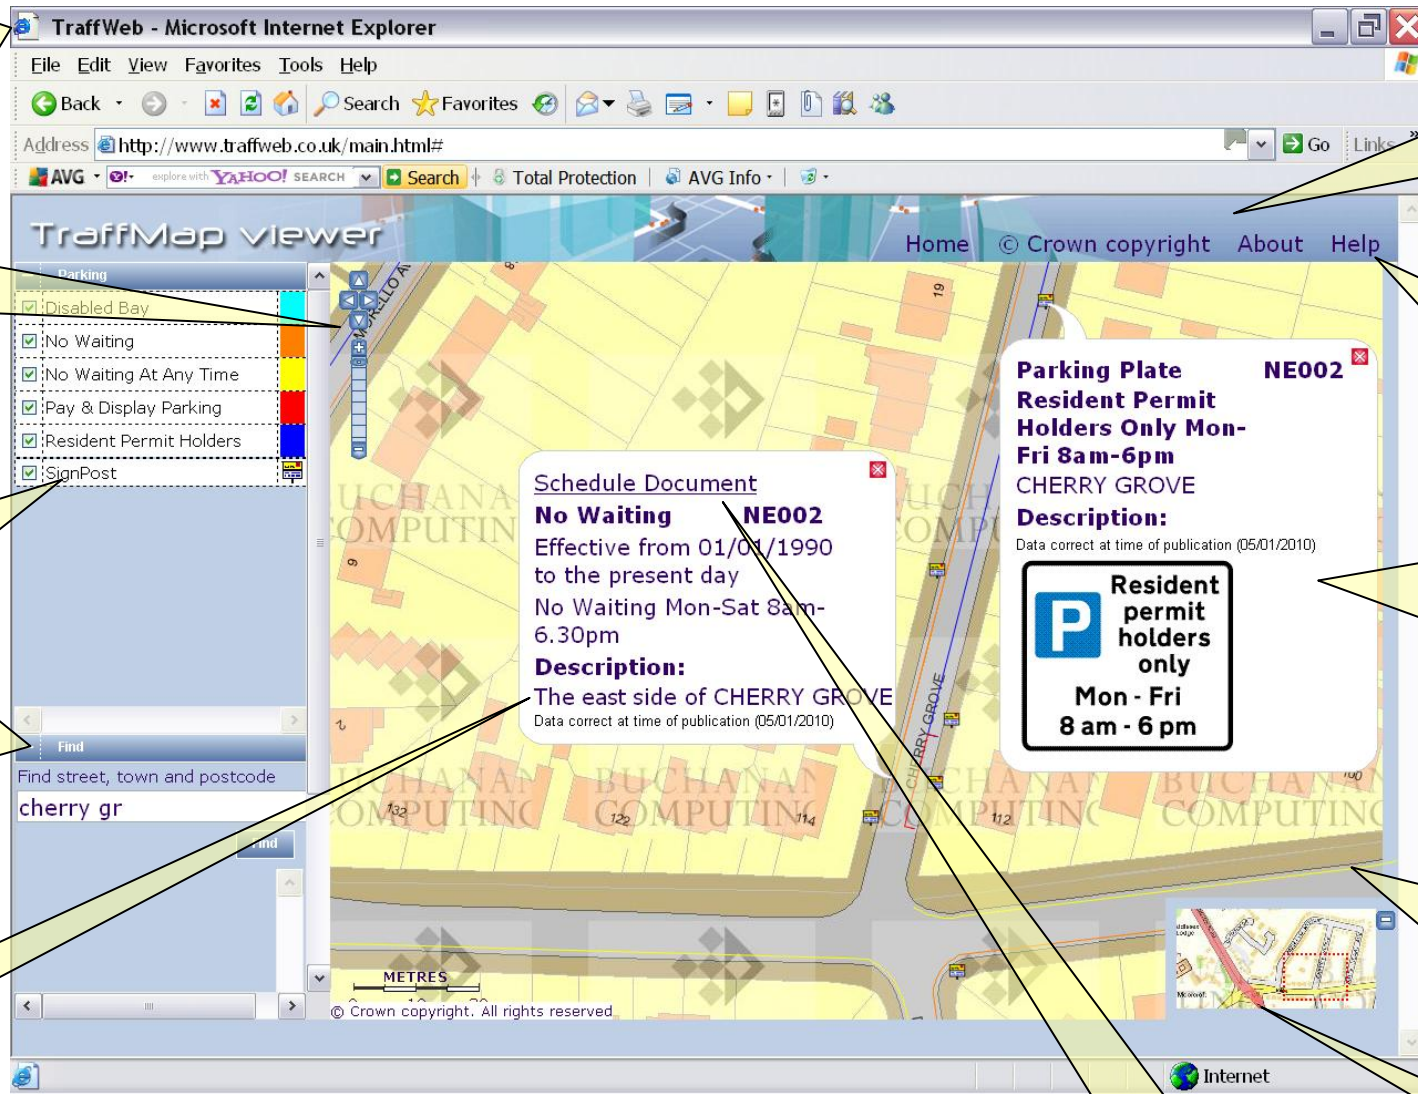

Uses IE or any other browser with no local installation or set-up.

State-of-the-art panning and zooming to avoid update delays.

Quickly change what information is displayed.

Where can I park?
Find a street, postcode or address and specify a date

Level of detail changes according to the user's status.

Configurable colours, style and graphics to fit into your website.

Menu of options and access to the comprehensive on-line help.

More detailed information is just a click away: summary of order schedule and accurate sign image.

Data is controlled by ParkMap, using the same display styles (lines or shaded areas).

Drill down into multiple layers of order information

Overview map, to see where you are.
